### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 1-19, 21-26, and 28-36 are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner agrees with the applicant in regards to the novelty of the new claims.
3. Applicant has amended the independent claims (P. 10) and further defined many of the limitations (P. 11), along with further providing motivations for the structure and differentiations from Syvanne (Pp. 12-13).
4. The claims 17 and 26 are drawn towards the creation of router cluster nodes and their interconnections (internal and external links), such that they are configured to exchange packets. In particular, the usage of external links and scalable routers is novel and non-obvious. In addition, claim 1 includes other features such as the use of special purpose nodes.
5. All other claims are dependent from an allowable claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
